

SPA DJANGO

A woman with long reddish-brown hair, seen from behind, stands on the edge of a swimming pool. She is wearing a white, long-sleeved, belted robe and holding a small yellow bottle in her left hand. The pool is filled with clear blue water. In the background, there is a dark wooden fence, a body of water, and a golf course with green grass and trees under a bright sky.

menu of spa services

“I awake...” tucked into the scenic wilderness of the Lost Pines Region, Spa Django offers a retreat for rest, relaxation and renewal of the mind, body and spirit.

Our spa’s name comes from the word “django,” which translates to mean “I awake,” and Django Reinhardt, the Belgian-born French gypsy-jazz guitarist whose distinctive interpretations of American jazz have served as a muse for generations of musicians the world over, including those hailing from the Lone Star State.

Because of its rich history in Texas and its power to relax, restore and inspire, music serves as one of the signature elements of the Spa Django experience. The eclectic sounds and soothing sights found throughout the spa and in the surrounding nature – along with aromatherapy and the restorative touch of treatments – work together in harmony to stir your senses.

We welcome you and invite you to prepare
for your awakening.
